

Meeting 1 – 24/11/2022

Chairman: -

Notetaker: Hubert

- Push agendas and notes to Gitlab
- For each meeting create an agenda, chairman and the notetaker
- 2 PR approvals to merge, main and dev are protected but dev can be force pushed to
- Weekly sprint retrospectives from week 3 onwards

Assignments:

- Requirements and Architecture (6th Dec)
- Prototype (around Christmas)
- Code smells
- Mutation testing

For next week:

- Requirements engineering & architecture prototype (MOSCOW)
 - Set up milestones and issues
 - Diagram of architecture (preferably UML)
- (Optional) Code of conduct – no direct points
- Push the template from BS over to Gitlab
- Decide on additional weekly meeting time
- Play around with the example repo to have a basic understanding

Chairman and Notetaker for next week:

C: Rares

N: Vian
