Meeting 2 – 01/12/2022

Chairman: Rares

Notetaker: Vian

Requirements Feedback

- We will do Scrum for the next 3 weeks and then assignments
- Add a check for correct address (street name must be the same as the HOA street name)
- Maybe move some Must Have to Should Have (Must should represent the minimum software requirements)
- Use issues, milestones and weights from Gitlab
- Also don't forget about the Sprint Retrospective (explain time difference if applicable)
- Separate requirements

Context Map Feedback

- Good

Microservices Diagram Feedback

- Good for the team but not the required document
- Refactor as UML Component Diagram in order to make it more abstract

Deadline Draft

- Tomorrow at 5pm
- The more we hand it, the more feedback we get
- Explain decisions

- First Sprint starts now
- Should have Sprint Retrospective next week (sent Wednesday night)
- Assignment 1 due 16th Dec
- Prototype Deadline due 23rd Dec
- Week 2.5 meeting not mandatory
- Week 2.6 meeting could be online, also not mandatory
- Decouple creating and joining HOA
- Client should provide everything for microservices
- Could also add a Distributor as an interface for the client
- Use design patterns where resonable
- Minimun 2 patterns, more if we see fit
